On [Glassdoor](#), current and former employees of companies worldwide can share insights and opinions about their work environments by sharing a company review, designed to capture a genuine and authentic inside look at what it's like to work at particular jobs and companies. When sharing a company review on Glassdoor, employees are asked to rate their satisfaction with the company overall, and key workplace factors like career opportunities, compensation, benefits, work/life balance, senior management, as well as culture and values. In addition, employees are asked to describe the best reasons to work at their companies as well as any downsides.

The Best Places to Work are determined using company reviews shared by U.S.-based employees between November 1, 2016 and October 22, 2017. To be considered for the large category, a company must have at least 1,000 or more employees and have received at least 75 ratings across eight workplace attributes from U.S.-based employees during the period of eligibility. The final list is compiled based on Glassdoor's proprietary algorithm, and takes into account quantity, quality and consistency of reviews.
