**Morrison Healthcare and Crothall Healthcare Named Two of *Modern Healthcare's Best Places to Work in Healthcare for 2018***

***Compass One Healthcare companies named to prestigious list honoring workplaces throughout the healthcare industry that empower employees to provide patients and customers with the best possible care, products and services.***

**ATLANTA and WAYNE, PA** (May 15, 2018) – [Morrison Healthcare](#) and [Crothall Healthcare](#) have been selected as two of *Modern Healthcare's Best Places to Work in Healthcare for 2018*. The two are among 150 healthcare companies named to the list. Both companies have won this prestigious award six times since the award started in 2008.

"Modern Healthcare's Top 150 validates our 'people first' culture and the pride our associates take in doing their jobs each and every day," said Compass One Healthcare CEO Bobby Kutteh. "We take our mission of enhancing the experience for patients, hospital staff, our communities and our people seriously. This recognition would not be possible without the genuine support we receive from our customers, whose great missions and cultures also engage our teams."

The two companies are unified as [Compass One Healthcare](#), a [Compass Group USA](#) company and leader in the healthcare industry with more than 46,000 employees across 48 states.

"Whether on the frontline or in the top office, healthcare employees witness moments that can either inspire or dishearten them. That can take a toll on an individual and healthcare organizations must take extra steps to ensure that highs and lows during the workday don't impact engagement or performance," said Modern Healthcare Editor Aurora Aguilar. "This year's best places to work, voted on by the employees themselves, exemplify what it takes to maintain dedication and satisfaction among its employees and that is the key to good patient care. Congratulations to this year's winners and we look forward to celebrating with you in September."

*Modern Healthcare's* Top 150 list recognizes employers for "creating a workplace that enables associates to perform at their optimum level and to provide patients and customers with the best possible care and services." Companies are chosen based on employer and employee surveys.

**About Compass One Healthcare**

Compass One Healthcare is a premier healthcare company with 46,000 engaged team members who are focused on delivering quality, value, and exceptional patient experience through specialized services and protocols in more than 1,600 hospital and health system locations in 48 states. Through a combined three-quarters of a century of healthcare experience, Compass One offers seven customer-focused core services: Food and Nutrition, Environmental, Patient

Transportation, Laundry & Linen, Healthcare Technology Solutions (Clinical Engineering), Facilities Management, and Ambulatory Services. Compass One is committed to the growth and development of its associates, and its unique Positive Impressions™ program features a team of 100-plus Patient Experience Managers dedicated to driving a better experience in each of our hospitals. Also, Compass One's exclusive partnership with Press Ganey leverages rich analytics to better understand how to improve experiences for patients, family, customers, caregivers, and the community.
